## SUMMARY

Results-oriented Java Full Stack Developer (Fresher) skilled in building secure, scalable web applications using Spring Boot, React.js, and RESTful APIs. Proficient in JWT authentication, OAuth2, CI/CD pipelines, Docker, GCP deployment, and Agile development. Committed to writing clean, maintainable, and testable code with a focus on usability and performance.

## SKILLS

- **Languages:** Java, JavaScript, Python
- **Frontend:** React.js, HTML5, CSS3, Tailwind, Next.js, Redux
- **Backend:** Spring Boot, Spring Security, JWT, REST APIs, OAuth2
- **Database:** MySQL, PostgreSQL
- **Cloud/DevOps:** GCP, Docker, CI/CD, Render
- **Payments:** Stripe, Razorpay
- **Tools:** Git, GitHub, Postman, VS Code, Eclipse, Jira

## PROJECTS

### AbiTrade – Crypto Trading Platform

[abi-trade.vercel.app](https://abi-trade.vercel.app)

- Developed a dynamic trading interface with real-time charts, market data, and a Gemini AI chatbot for smart queries.
- Implemented secure JWT-based login, two-factor authentication, and integrated Stripe and Razorpay for payment processing.
- Deployed the platform to Render using Docker and maintained CI/CD automation for continuous delivery.

### Employee Management System

[employee-frontend-delta-gold.vercel.app](https://employee-frontend-delta-gold.vercel.app)

- Created a full-featured employee and attendance system using Spring Boot API.
- Built a mobile-first frontend in React.js and tested workflows to ensure consistent functionality and UX.

### E-Commerce Platform (Demo)

- Designed a secure e-commerce flow with product catalog, cart, checkout, and integrated payment systems.
- Used Spring Boot + Spring Security for backend and React.js with Tailwind CSS for a responsive UI.

### Ramesh Electricals Website

[manigandan-j.neocities.org](https://manigandan-j.neocities.org)

- Developed a static site with HTML, CSS, and JavaScript, featuring SEO optimization and a user-friendly contact form.

### SSS College Website

[sss-college.netlify.app](https://sss-college.netlify.app)

- Built a responsive academic information portal using Next.js and Tailwind CSS, optimized for mobile devices.

## CORE STRENGTHS

- Fast learner with strong analytical thinking and a passion for continuous learning.
- Practical knowledge of version control, API design, and component-driven development.
- Strong collaboration skills, with experience in Agile teams and sprint-based development.

## LANGUAGES

English (Professional), Tamil (Native)

## EDUCATION

### Bachelor of Computer Applications (BCA)

SSS College of Arts, Science & Management

2022–2025

CGPA: 7.6 / 10

HSC: 75%

SSLC: 81.8%

## CERTIFICATIONS

- Google Cloud Fundamentals – [Credly Certified](#)
- Java Full Stack Developer – Spring Boot (Udemy) – [Certificate](#)
